PARTNER PROGRAMME

Introduce buyers. Earn on the profit.

Affiliate partner guide — from registration to payment, with no hidden step.

ORBE COMMODITIES · COMMODITIES.ORBEALLIANCE.COM/CATALOG/PARTNERS

WHY IT IS WORTH IT

You introduce. Orbe operates. You share in the profit.

Orbe Commodities exports Brazilian products by the container to importers and distributors. If you already move among buyers in these markets, the programme turns that relationship into revenue: you introduce, Orbe runs the operation end to end, and you share in the profit of every confirmed sale.

You operate nothing

No stock, currency, customs or contracts on your shoulders. Orbe handles quoting, freight, documentation and collection. Your work ends at the introduction.

The link is permanent

A buyer who arrives through your link stays tied to you for good — on the first purchase and on every one after it, for as long as they keep buying.

Commission on determined profit

You earn a percentage of the net profit of each confirmed sale, with the calculation recorded in your panel — not an estimate, not a promise.

Purchases that repeat

An importer who finds the right supplier tends to reorder the container. Every reorder by your referral is a new commission for you.

HOW IT WORKS · FROM REGISTRATION TO PAYMENT, WITH NO HIDDEN STEP

Six steps, for the partner

1

Send your application

One form: who you are and six short blocks on your buyer network, your track record and how you run a first deal. No account needed, no joining fee and no monthly charge, and what you fill in is saved in your browser.

2

Review and onboarding call

Orbe reviews the registration by hand, as it does with buyers. Once approved, we schedule an online onboarding call to walk you through the catalogue, agree your percentage and answer your questions before you start.

3

Get your access and your link

Orbe emails you an invitation. You set your password and enter the partner area with the agreed percentage already in place and your link, in the form **commodities.orbealliance.com/r/YOURCODE**.

4

Introduce buyers

Take the link to people who import. Every visit is counted; we never record who the visitor is.

5

The buyer registers and buys

Whoever registers through your link is tied to you for good. Orbe takes over quoting, freight and shipment.

6

The commission is determined and paid

Once the sale is confirmed, Orbe determines the net profit, records your commission in the panel and pays within 30 days of full receipt from the buyer.

THE COMMISSION

A percentage of the net profit of each sale

HOW IT IS CALCULATED

Standard 10% of net profit, always visible in your panel

Operation's net profit — Your commission

Standard of **10%**, agreed case by case on approval. Net profit = sale revenue less cost of goods, freight, insurance, taxes, shipping expenses and the other direct costs. Applies to closed orders and to reservations in a shared container.

Forecast → Approved → Paid

amounts in US$

WHEN YOU GET PAID

Within 30 days

The right arises when Orbe confirms the sale and determines the profit. Payment goes out within 30 days of full receipt from the buyer, off the platform — no money passes through the system.

WHAT YOU TRACK

Visits, referrals and commissions

Visits through your link (total and 30 days), the buyers you referred (company, country and status) and each commission with the profit that originated it, the percentage and the payment status.

Privacy: you see company, country and status of your referrals — never email, phone or purchase price. The buyer is not told they came through a referral. **Important:** self-referral and registering your own or an affiliated company do not generate commission; a cancelled or unpaid sale does not either.

Security notice

Orbe Commodities warns that fraudulent websites, profiles and messages have been impersonating the company, using a name similar to ours. Orbe Commodities has no commercial, financial or logistical relationship with these fraudulent sites. Do not advertise in Orbe's name or use its brands without written authorisation, and do not promise a price or lead time that Orbe has not confirmed.
